Subject: Submission of Manuscript: 'When Should Language Models Learn from Reinforcement? Predicting Plasticity and Adaptively Scheduling Reinforcement Learning During Foundation-Model Training'

Dear Editors-in-Chief and Action Editors,

We are pleased to submit our manuscript entitled '**When Should Language Models Learn from Reinforcement? Predicting Plasticity and Adaptively Scheduling Reinforcement Learning During Foundation-Model Training**' for consideration as a research article in the Journal of Machine Learning Research (JMLR).

In accordance with JMLR author submission guidelines, we provide the following required disclosures and declarations:

- 1. Prior Publications and Overlap Disclosure:** This manuscript presents entirely original research and has not been published previously in any peer-reviewed conference or journal. It is not currently under concurrent consideration at any other journal or archival conference.
- 2. Author Consent Confirmation:** All authors have read and approved the final manuscript and explicitly consent to its submission to the Journal of Machine Learning Research.
- 3. Conflict of Interest Declaration:** The authors declare no competing financial or personal conflicts of interest that could influence the work reported in this paper.
- 4. Suggested JMLR Action Editors:** Prof. Quanquan Gu (UCLA), Prof. Nan Jiang (UIUC), Prof. Qiang Liu (UT Austin). *[AUTHOR MUST VERIFY COI BEFORE FINAL SUBMISSION]*
- 5. Suggested Reviewers:** Dr. Arpit Bansal (UMD), Dr. Rishabh Agarwal (Google DeepMind), Prof. Percy Liang (Stanford). *[AUTHOR MUST VERIFY COI BEFORE FINAL SUBMISSION]*
- 6. Article Keywords:** reinforcement learning, large language models, foundation models, optimization, training dynamics.

Thank you for considering our work. We look forward to your feedback.

Sincerely,

Sham Thakare
